Opening Statement – Sheriff Randy Tucker opened the meeting asking the board to review and approve the minutes. Minutes were then approved by the board. Sheriff Tucker then goes on to explain that since the last meeting that there have not been any checkpoints nor vehicle searches. He also stated that there had not been any new hires, therefore no training had been needed. There are some yearly evaluations coming up and those will be provided at the next meeting. The Sheriff also pointed out that each patrol vehicle now has a tracking device in them for multiple purposes. They can monitor patrols and obviously it does help with accountability but it also helps track needed maintenance on each vehicle as well. The Sheriff then opened the floor to the public.

Mr. Tom representing the ACLU thanked everyone in attendance and he said at this time he didn't have any topics for discussion.

The board then acknowledged that there were not any others present and the motion was made to close out the meeting.

Next meeting will be April 13th, 2023
