**Opening Statement:** Chief Deputy Jeremy Williams opens with covering the minutes from the past meeting and asks the board to review and vote to approve. Once minutes were approved, he then moved on to provide and review the training sign in sheet showing where the required training was held. Lastly, Chief Deputy Williams pointed out a summary report from an incident that occurred in Canton, MS and explained that the checkpoint had been authorized even though it was never established as the fleeing suspect's mother brought him to the officers and turned him in. Chief Deputy Williams then opened the floor up...

Joshua Tom representing the ACLU speaks and asks if we should have been provided an incident report too. Chief Deputy Williams responds thinking that was not required according to the consent decree. At that time Becky Cowan looked further into this and found where it was in fact not required.

The next meeting date of 1/12/23 was then tabled and voted on and everyone was good with that date.

Lastly Charles Cowan was introduced to replace Becky Cowan as she will be retiring from her office.
